The European System for The Protection of Human Rights Ronald Macdonald, F. Matscher, H. Petzold, 1993-01-01

European Union Non-Discrimination Law and Intersectionality Anna Lawson, 2016-07-22 This book contributes to a critical reflection of current legislative and jurisprudential developments in Non Discrimination Law focusing on the European Union The book is focused on intersectionality between gender race and disability and the question of whether and to what extent this intersection can be adequately addressed in EU law The discussion rests on two basic assumptions First the multiplication of discrimination grounds in EU law and other legal regimes should not result in a dilution of the demands of equality law Accordingly the book focuses on the three key grounds race gender and disability These constitute nodes around which other discrimination grounds can be grouped Second any multi ground non discrimination law framework needs to engage with the question of discrimination on several grounds This book provides a critical evaluation of some of the problems presented by such intersectionality and an opportunity to explore the issues in depth This collection offers some new proposals relating to the regrouping of identity categories and to the general approach to socio legal research in the field It also contains a comparative section which expands on practical experiences with intersectionality and law and a section dedicated to juridical responses to intersectionality The book will be a valuable resource for researchers academics and those working in the area of EU non discrimination law and policy

The Palestinian-Arab Citizens of Israel:

Towards the Internationalisation of National Aspirations Ilham Shahbani, 2021-01-28 The relations between the Israeli state and its Arab citizens have been distorted by the perception that national security concerns require the full rights of citizenship to be restricted for members of the Arab community However the national security of the state can also be affected by a poor reputation in the international community which plays a vital role in sustaining the existence of the state This created a space for Arab intelligentsia to use internationalisation as a means to promote their cause This study is designed to explore and analyse the internationalisation process and its impact regarding the Arab community in Israel It is a beneficial source to academics experts policymakers journalists and other experts and interested members of the public

Managing Diversity through Non-Territorial Autonomy Tove H. Malloy, Alexander Osipov, Balázs Vizi, 2015-07-23

Non territorial autonomy NTA is a statecraft tool that is increasingly gaining importance in societies seeking to accommodate demands by ethno cultural groups for a voice in cultural affairs important to the protection and preservation of their identity such as language education and religion As states recognize the specific rights of identity minorities in multicultural and multi ethnic societies they are faced with a need to improve their diversity management regimes NTA offers policy makers a range of options for institutional design adaptable to specific circumstances and historical legacies It devolves degrees of power through legal frameworks and institutions in specific areas of ethno cultural life while maintaining social unity at the core level of society Throughout Europe and North America NTA exists and is implemented at a state regional and local level

Much has been written about the concept of autonomy and its usage as a statecraft tool in states facing regional division but little literature addresses its non territorial institutional and public administration functions This edited volume seeks to fill this gap *Managing Diversity through Non Territorial Autonomy Assessing Advantages Deficiencies and Risks* carves a space for contextual knowledge production on NTA in law as well as social and political sciences Contextual knowledge involves a description of institutions and their functionality as well as of the institutional and legal frames protecting these What are the institutions bodies and functions that ethno cultural groups can draw on when seeking to have a voice over their own affairs as well as over issues in society related to their identity production How are these entities incorporated and empowered to have a voice What degree of voice do they have and how are they designed to project this voice Thus contextual knowledge also involves critical assessment and risk analysis as well as penetrating insights as to the unintended consequences and hidden agendas that may inform NTA policies This volume is to provide both policy makers and ethno cultural groups with a tool kit that promotes social cohesion while respecting diversity This is the first volume in a series of five which will examine the protection and representation of minorities through non territorial means Minority Rights Protection in International Law Helen O'Nions, 2016-04-22 There are approximately ten million Roma in Europe making them the continent's largest non territorial minority Despite this fact the Roma continue to experience routine discrimination and marginalization in European countries As a result they are seldom engaged in national political activism and are frequently at the bottom of the economic and social ladder The severity of exclusion experienced by the Roma in societies which have long paid heed to the notion of individual universal human rights combined with their geographical dispersal and heterogeneous nature makes the study of the Roma highly informative This book examines the theoretical debate concerning the most appropriate way of protecting the fundamental human rights of the Roma which also illuminates ways in which the rights of minority groups can be protected more generally As a result this work will be a valuable resource for social scientists and practitioners in the field of human rights *Minorities in International Law* Gaetano Pentassuglia, European Centre for Minority Issues, 2002-01-01 This book the first in the series of publications on minority issues provides a critical overview of the protection of minority groups in international law Topics covered include the definition of a minority concepts of state sovereignty and self determination the historical context to international human rights law the legal frameworks developed by the UN the Council of Europe the Organisation for Security and Co operation in Europe OSCE and the EU as well as examples of legal approaches adopted by individual European countries to address the protection of minorities **Synergies in Minority Protection** Kristin Henrard, Robert Dunbar, 2008 Have recent developments in international and European law resulted in an integrated and coherent system of minority protection **Parliamentary Assembly Documents 2001 Ordinary Session (First part), Volume III** Council of Europe, Protection of the Roma Minority Under International and European Law Anikó Szalai, 2015 This book offers comprehensive coverage of all international legal aspects relating to the protection of Europe's

biggest minority group the Roma It combines a practical approach with in depth analysis based on the most up to date international documents and more than 160 international and national cases A unique comparison is made with respect to the similarities of indigenous peoples and the Roma Issues of indigenous peoples are highly featured in the work of the United Nations and as such the possibility of extending this protection to the Roma besides Article 27 of the International Covenant on Civil and Political Rights ICCPR is analyzed At the European level the book covers the relevant case law of the European Court of Human Rights and the European Court of Justice as well as that of the OSCE the Council of Europe the European Committee of Social Rights and the EU Besides material law the book will also guide the reader in procedural aspects by advising on which forum to choose for a Roma related discrimination case Librarians ebook available on ProQuest and EBSCO Subject Human Rights Law European Law International Law Indigenous Law Questions de minorités en Europe Hellēniko Kentro Eurōpaikōn Meletōn,1994 Colloque du Centre hellēnique d aetudes europaeennes EKEM janvier 1993 Nauplie t p verso *By all means necessary: Protecting civilians and preventing mass atrocities in Africa* Dan Kuwali,Frans Viljoen,2017-05-16 *Justifications of Minority Protection in International Law* Athanasia Spiliopoulou Åkermark,1997-07-23 1993 1995 *OSCE and Minorities* Stanisław Parzymies,2007 Minorities, Free Speech and the Internet Oscar Pérez de la Fuente,Alexander Tsesis,Jędrzej Skrzypczak,2023-03-14 Minorities Free Speech and the Internet explores the regulation of free speech online and offline Views are divided as to how much regulation of the Internet is appropriate Some argue that it should be an unregulated space for free content On the other hand in many democracies online hate speech harassment and xenophobia are prohibited and punished This book provides a forum for leading international scholars to address domestic and comparative dimensions of this complex legal conundrum First the authors analyse the free speech and Internet regulations in different legal cultures including the United States Europe China and Russia Second they study fake news extreme right speech and the implications of hate speech on pluralistic society Third they examine different case law addressing minority sensibilities historical discriminations offensive propaganda and other issues particularly concerning minorities and free speech This book will be of interest to students and scholars interested in the topics of hate speech and minorities democracy misinformation and debates about the Internet as well as political science researchers **Judaean Addresses** Judaeans (Organization),1927 **The Congress of the European National Minorities** ,1938 European Economic and Political Survey ,1927 Double Standards Pertaining to Minority Protection Kristin Henrard,2010-10-05 While allegations of double standards are mostly voiced in relation to the EU this book takes a multidimensional approach to the use of differential standards concerning minorities and minority protection Not only do academics from different disciplines contribute to the volume but the multidimensionality also resides in the fact that several international organisations active in the field of minority protection are included in the analysis Furthermore differential standards are also discussed in relation to the ongoing debate about the status and rights of new minorities Finally the

challenge of protecting minorities and other vulnerable groups within minorities is addressed In the process the book revisits the fundamental tenets of minority protection as well as the basic rationale of the international organisations concerned

Struggles for Belonging Dieter Gosewinkel, 2021-11-04 Citizenship was the most important mark of political belonging in Europe in the twentieth century while estate religion party class and nation lost political significance in the century of extremes This is shown by examining the legal institution of citizenship with its deciding influence on the limits of a political community on inclusion and exclusion Citizenship determined a person's protection equality and freedom and thus his or her chances in life and very survival This book recounts the history of citizenship in Europe as the history of European statehood in the twentieth and early twenty-first centuries It does so from three vantage points as the development of a legal institution crucial to European constitutionalism as a measure of an individual's opportunities for self-fulfilment ranging from freedom to totalitarian subjugation and as a succession of alternating often sharply divergent political regimes considered from the perspective of their inclusivity and exclusivity and its justification The European history of citizenship is discussed in this book on the basis of six selected countries Great Britain France Germany Czechoslovakia Poland and Russia For the first time a joint history of citizenship in Western and Eastern Europe is told here from the heyday of the nation state to our present day which is marked by the crises of the European Union It is the history of a central legal institution that significantly represents and at the same time determines struggles over migration integration and belonging One of the central concerns of this book is what lessons can be learned when it comes to the future chances of European citizenship
