**Training Circular Tc 3-04.33 (Tc 1-237) Aircrew Training Manual, Utility Helicopter, H-60 Series May 2013** United States Government US Army, US Army, 2013-06-15 This ATM describes training requirements for H 60 crewmembers. It will be used with AR 95-1, AR 600-105, AR 600-106, National Guard regulation NGR 95-210, TC 3-04-11, and other applicable publications. The tasks in this ATM enhance training in both individual crewmember and aircrew proficiency. The training focuses on accomplishing tasks that support the unit's mission. The scope and level of training to be achieved individually by crewmembers and collectively by aircrews will be dictated by the mission essential task list (METL). Commanders must ensure that aircrews are proficient in mission essential tasks. Training circular TC 3-04-33 standardizes aircrew training programs and flight evaluation procedures. This aircrew training manual (ATM) provides specific guidelines for executing H 60 aircrew training. It is based on the battle-focused training principles. It establishes crewmember qualification, refresher mission, and continuation training and evaluation requirements. This manual applies to all H 60 series crewmembers and their commanders. This is not a stand-alone document. All the requirements of Army regulations (ARs) and TC 3-04-11 must be met. Implementing this manual conforms to AR 95-1 and TC 3-04-11. This manual, in conjunction with the ARs and TC 3-04-11, will help aviation commanders at all levels develop a comprehensive aircrew training program. By using this ATM, commanders ensure that individual crewmember and aircrew proficiency is commensurate with their unit's mission and that aircrews routinely employ standard techniques and procedures. Crewmembers will use this manual as a how-to source for performing crewmember duties. It provides performance standards and evaluation guidelines so that crewmembers know the level of performance expected. Each task has a description that describes how it should be done to meet the standard. Standardization officers, evaluators, and unit trainers will use this manual and TC 3-04-11 as the primary tools to assist the commander in developing and implementing the aircrew training program. This publication applies to the Active Army, the Army National Guard (ARNG), Army National Guard of the United States, and the United States Army Reserve (USAR) unless otherwise stated. The proponent of this publication is the United States Army Training and Doctrine Command (TRADOC).
