*Television Is the New Television* Michael Wolff, 2017-02-07 The closer the new media future gets the further victory appears Michael Wolff This is a book about what happens when the smartest people in the room decide something is inevitable and yet it doesn't come to pass What happens when omens have been misread tea leaves misinterpreted gurus embarrassed Twenty years after the Netscape IPO ten years after the birth of YouTube and five years after the first iPad the Internet has still not destroyed the giants of old media CBS News Corp Disney Comcast Time Warner and their peers are still alive kicking and making big bucks The New York Times still earns far more from print ads than from digital ads Super Bowl commercials are more valuable than ever Banner ad space on Yahoo can be bought for a relative pittance Sure the darlings of new media BuzzFeed HuffPo Politico and many more keep attracting ever more traffic in some

cases truly phenomenal traffic But as Michael Wolff shows in this fascinating and sure to be controversial book their buzz and venture financing rounds are based on assumptions that were wrong from the start and become more wrong with each passing year The consequences of this folly are far reaching for anyone who cares about good journalism enjoys bingeing on Netflix works with advertising or plans to have a role in the future of the Internet Wolff set out to write an honest guide to the changing media landscape based on a clear eyed evaluation of who really makes money and how His conclusion The Web social media and various mobile platforms are not the new television Television is the new television We all know that Google and Facebook are thriving by selling online ads but they re aggregators not content creators As major brands conclude that banner ads next to text basically don t work the value of digital traffic to content driven sites has plummeted while the value of a television audience continues to rise Even if millions now watch television on their phones via their Netflix Hulu and HBO GO apps that doesn t change the balance of power Television by any other name is the game everybody is trying to win including outlets like The Wall Street Journal that never used to play the game at all Drawing on his unparalleled sources in corner offices from Rockefeller Center to Beverly Hills Wolff tells us what s really going on which emperors have no clothes and which supposed geniuses are due for a major fall Whether he riles you or makes you cheer his book will change how you think about media technology and the way we live now
