Definition of Abnormality

A person may be considered abnormal if they show a significant deviation from the norm. This can be in terms of their behaviour, thoughts, feelings, or physical characteristics. There are four main definitions of abnormality: the statistical infrequency definition, the deviation from social norms definition, the failure to function adequately definition, and the personal distress definition.

Conformity

The graph shows the results of the Asch line judgment task. The x-axis represents the number of confederates (1 to 7), and the y-axis represents the percentage of correct responses. The graph shows that conformity increases as the number of confederates increases, peaking at 75% for 3 confederates and then slightly decreasing.

AQA Psychology Paper 1 ATTACHMENT

Animal Studies

Animal studies have shown that attachment is a biological process. In the case of dogs, attachment is formed between the pup and the mother. This is a result of the pup's need for protection and the mother's need to protect her pup.

AQA Psychology Paper 1 ATTACHMENT

Maternal Deprivation

Maternal deprivation refers to the lack of a consistent and responsive caregiver. This can lead to serious psychological and physical problems. The effects of maternal deprivation are most severe when it occurs in the first year of life.
