Prospectus Of University Of Northwest 2016:

The Outlaw Ocean Ian Urbina, 2019-08-20 NATIONAL BESTSELLER A riveting adrenaline fueled tour of a vast lawless and rampantly criminal world that few have ever seen the high seas There are few remaining frontiers on our planet But perhaps the wildest and least understood are the world's oceans too big to police and under no clear international authority these immense regions of treacherous water play host to rampant criminality and exploitation Traffickers and smugglers pirates and mercenaries wreck thieves and repo men vigilante conservationists and elusive poachers seabound abortion providers clandestine oil dumpers shackled slaves and cast adrift stowaways drawing on five years of perilous and intrepid reporting often hundreds of miles from shore Ian Urbina introduces us to the inhabitants of this hidden world Through their stories of astonishing courage and brutality survival and tragedy he uncovers a globe spanning network of crime and exploitation that emanates from the fishing oil and shipping industries and on which the world's economies rely Both a gripping adventure story and a stunning exposé this unique work of reportage brings fully into view for the first time the disturbing reality of a floating world that connects us all a place where anyone can do anything because no one is watching

Self-Tracking Btihaj Ajana, 2017-10-01 This book provides an empirical and philosophical investigation of self tracking practices In recent years there has been an explosion of apps and devices that enable the data capturing and monitoring of everyday activities behaviours and habits Encouraged by movements such as the Quantified Self a growing number of people are embracing this culture of quantification and tracking in the spirit of improving their health and wellbeing The aim of this book is to enhance understanding of this fast growing trend bringing together scholars who are working at the forefront of the critical study of self tracking practices Each chapter provides a different conceptual lens through which one can examine these practices while grounding the discussion in relevant empirical examples From phenomenology to discourse analysis from questions of identity privacy and agency to issues of surveillance and tracking at the workplace this edited collection takes on a wide and yet focused approach to the timely topic of self tracking It constitutes a useful companion for scholars students and everyday users interested in the Quantified Self phenomenon Deconstructing Digital Capitalism and the Smart Society Mel van Elteren, 2024-12-26 Today's critics of big online platforms tend to consider privacy breaches

monopolistic practices and the deployment of surveillance technologies as the main problems Internet reformers suggest the answers to these issues reside in more and better regulations While the questions of privacy data and size are indeed important they are secondary however to a deeper set of concerns about platform ownership and control and who benefits from the current status quo This book examines these issues and offers an historical overview and in depth analysis of digital capitalism and its prevailing practices as it has become increasingly intertwined with various forms of online surveillance behavior modification and the delegation of managerial functions to algorithmic and automated systems in platform economies The approach taken extends to the wider array of data driven internet connected and automated systems that

involve digital devices and technologies centered on three smart spaces the smart self the smart home and the smart city Antitrust and other regulatory measures by the European Union and the United States that are aimed at restraining platform capitalism are also discussed The focus in particular is on recent developments regarding artificial intelligence and their potentially harmful implications This is followed by a critical look at proposals for more far reaching institutional reforms revolving around the creation of forms of platform socialism that build partly on existing practices of platform cooperativism The book concludes with a diagnosis of the global situation among the competing digital empires the United States the European Union and China and considers whether or not under the present conditions any form of democratic platform socialism could materialize on a wider scale in the near future **Exhibiting the Archive** Peter Lester,2022-06-24

Exhibiting the Archive examines the role that exhibition plays in archives and analyses the impact they are understood to have on how users and visitors experience the archive Drawing on research conducted in Europe North America and Australia the book analyses the key theoretical and social influences on exhibition making in archives today and discusses the role of exhibitions in the archives of tomorrow This is the first in depth study to consider exhibition as more than outreach or advocacy it frames exhibition as an encounter with archives and with people and interprets it as a mechanism for change within the archive Against a backdrop of increasing digital activity Lester asks what experience within the physical space of the archive could be Drawing on ideas of spatiality and embodiment as well as social justice and activism Lester considers the role of exhibitions within the physical archive and the part they can play in reshaping how experience is understood to happen within it *Exhibiting the Archive* offers a new perspective on the archive that will be of interest to academics and students engaged in the study of archives and records The discussions of cutting edge practice offer new insights into how exhibitions are conceived and made and will therefore be of interest to practitioners around the world *Handbook on Green Infrastructure* Danielle Sinnett,Nick Smith ,Sarah Burgess,2015-11-27 Green infrastructure encompasses many features in the built environment It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand create protect and manage this resource This Handbook sets the context for green infrastructure as a means to make urban environments more resilient sustainable liveable and equitable Including state of the art reviews that summarise the existing knowledge as well as research findings this Handbook provides current evidence for the beneficial impact of green infrastructure on health environmental quality and the economy It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation emphasising the importance of collaboration across multiple professions and sectors This comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods with international case studies used throughout to illustrate key examples of good practice This collection of expert contributions will be invaluable to students and academics in the fields of planning urban studies and

geography Practitioners and policy makers will also find the policy discussion and examples enlightening *More Than a Feeling* Adam J. Ramey, Jonathan D. Klingler, Gary E. Hollibaugh, 2017-04-27 Whatever you think about the widening divide between Democrats and Republicans ideological differences do not explain why politicians from the same parties who share the same goals and policy preferences often argue fiercely about how best to attain them This perplexing misalignment suggests that we are missing an important piece of the puzzle Political scientists have increasingly drawn on the relationship between voters personalities and political orientation but there has been little empirically grounded research looking at how legislators personalities influence their performance on Capitol Hill With *More Than a Feeling* Adam J Ramey Jonathan D Klingler and Gary E Hollibaugh Jr have developed an innovative framework incorporating what are known as the Big Five dimensions of personality openness to experience conscientiousness extraversion agreeableness and neuroticism to improve our understanding of political behavior among members of Congress To determine how strongly individuals display these traits the authors identified correlates across a wealth of data including speeches campaign contributions and expenditures committee involvement willingness to filibuster and even Twitter feeds They then show how we might expect to see the influence of these traits across all aspects of Congress members political behavior from the type and quantity of legislation they sponsor and their style of communication to whether they decide to run again or seek a higher office They also argue convincingly that the types of personalities that have come to dominate Capitol Hill in recent years may be contributing to a lot of the gridlock and frustration plaguing the American political system *Streptomyces: Biological Candidates for Sustainable Agriculture* Talwinder Kaur, Harsh Kumar, Rajesh Kumari Manhas, 2026-01-09 This edited book offers a comprehensive exploration of the role that *Streptomyces* a genus of actinobacteria plays in sustainable agriculture As the world grapples with the dual challenges of a growing population and environmental sustainability *Streptomyces* emerges as a promising solution to enhance agricultural productivity while reducing reliance on harmful chemicals This volume sheds new light on how *Streptomyces* can mitigate biotic and abiotic stresses enhancing plant health and soil quality The chapters cover topics such as the diversity of *Streptomyces* species and their bioactive metabolites and their applications as biocontrol agents against phytopathogens insect pests and plant parasitic nematodes The book delves into the mechanisms by which these bacteria promote plant growth offering insights into their potential to revolutionize agricultural practices The book discusses the latest advancements in utilizing *Streptomyces* for sustainable food production addressing critical questions about their role in future agricultural systems This volume is valuable for researchers scholars and practitioners in the fields of agriculture microbiology and environmental science It invites readers to explore the intersection of microbial diversity and sustainable farming providing insights that are crucial for developing innovative agricultural solutions **Behavioural and Ecological Consequences of Urban Life in Birds** Caroline Isaksson, Amanda D. Rodewald, Diego Gil, 2018-06-19 Urbanization is next to global warming the largest threat to biodiversity Indeed it is becoming increasingly evident that many

bird species get locally extinct as a result of urban development However many bird species benefit from urbanization especially through the abundance of human provided resources and increase in abundance and densities These birds are intriguing to study in relation to its resilience and adaption to urban environments but also in relation to its susceptibility and the potential costs of urban life This Research Topic consisting of 30 articles one review two meta analyzes and 27 original data papers provides insights into species and population responses to urbanization through diverse lenses including biogeography community ecology behaviour life history evolution and physiology
