Psychic Readings Dan Phillips, PhD, 2023-11-10 Fundamentally psychic ability is the ability to obtain information that is outside the realm of the usual senses or the mind. These skills cover a broad range of experiences that enable people to observe, understand, and engage with the invisible facets of reality. There are many other ways that psychic skills might show up including clairvoyance, clear seeing, clairaudience, clear hearing, clairsentience, clear feeling, and precognition, foreseeing the future. The ability to see events, things, or information that the physical eyes are unable to perceive is known as clairvoyance. Clairaudience enables people to perceive noises or messages emanating from non-physical sources. Clairsentience is the ability to perceive feelings, energy, or impressions around individuals, locations, or objects with an intuitive sense. Telepathy enables the transfer of ideas and feelings between minds without the need for spoken words, while precognition provides predictions about what will happen in the future.
