Operation Typhoon Hitler S March On Moscow October 19hardcover:

Operation Typhoon David Stahel,2013-02-14 Fascinating new account of Hitler s Operation Typhoon launched in October 1941 and its significance for the wider German war effort **Operation Typhoon** Philippe Naud,2020-01-10 A visual look at the Nazi assault on the Soviet capital in the series that s a welcome addition targeted at the general World War II enthusiast Globe at War After the initial successes of Operation Barbarossa at the end of September 1941 Hitler turned his focus to Moscow with the unshakeable belief that capturing the capital would knock the Soviets out of the war On the face of it it was an unequal matchup in Germany s favor but the picture was in fact a great deal more complex the Germans had suffered very significant losses since the invasion of Russia had begun and had issues with logistics and air support The Soviets under the command of Gen Zhukov were beginning to be better supplied with reinforcements and were prepared to defend to the death This volume in the Casemate Illustrated series concentrates on the main German assault of October 1941 Guderian s panzer divisions at first made sweeping gains as they had done so many times before and large parts of the Red Army were encircled at Vyazma and Bryansk These successes allowed the Soviets time to regroup as the encircled armies did not surrender and had to be dealt with Then three engagements followed at Mtsensk Maloyaroslavets and the Mojaisk defense line that proved that the war in the east was not entering its final days as German high command believed Illustrated with over 150 photographs plus profile drawings of tanks vehicles and aircraft this book gives a vivid impression of the situation for both protagonists and a detailed analysis of the critical days as the fate of Moscow and perhaps the whole war hung in the balance **The Battle for Moscow** David Stahel,2017-02-16 In November 1941 Hitler ordered German forces to complete the final drive on the Soviet capital now less than 100 kilometres away Army Group Centre was pressed into the attack for one last attempt to break Soviet resistance before the onset of winter From the German perspective the final drive on Moscow had all the ingredients of a dramatic final battle in the east which according to previous accounts only failed at the gates of Moscow David Stahel challenges this well established narrative by demonstrating that the last German offensive of 1941 was a forlorn effort undermined by operational weakness and poor logistics and driven forward by what he identifies as National Socialist military thinking With unparalleled research from previously undocumented army files and soldiers letters Stahel takes a fresh look at the battle for Moscow which even before the Soviet winter offensive threatened disaster for Germany s war in the east **Konev's Golgotha** Mikhail Filippenkov,2019-06 This book is a historical study of the events of October 1941 in the Viaz ma pocket based on documents found in the Russian Federation s Central Archive of the Ministry of Defense the German Bundesarchiv and the US National Archives Mikhail Filippenkov describes the events that took place through the simultaneous comparative analysis of Soviet and German combat reports according to time and in the manner of reporting from the places of those events as they happened The author writes about these events with chronological accuracy not on the level of army headquarters and higher but exclusively on the level of the combat units

down to the division level and with concrete geographical reference to the combat maps of those times Particular attention is paid to the events that took place in the vicinity of Sychevka in Smolensk Oblast because what happened there has never been deeply researched or examined by anyone in Russia Unfortunately research must rely primarily on the combat reports and combat documents of the units of the Wehrmacht's Panzergruppe 3 since almost no documents on the Soviet side have been preserved They were either destroyed together with the units and formations trapped within the Viazma pocket or destroyed at an order from above to those units and formations which managed to escape encirclement more or less intact in order to erase any record of the disaster

Disaster at Moscow Alfred W. Turney, 1970 *Moscow 1941* Rodric Braithwaite, 2009-11-04 In 1941 close to one million Russian soldiers died defending Moscow from German invasion more casualties than that of the United States and Britain during all of World War II Many of these soldiers were in fact not soldiers at all but instead ordinary people who took up arms to defend their city Students dropped their books for guns released prisoners exchanged their freedom for battle and women fought alongside men on the bloody mud covered frozen road to Moscow By the time the United States entered the war the Germans were already retreating and a decisive victory had been won for the Allies With extensive research into the lives of soldiers politicians writers artists workers and children Rodric Braithwaite creates a richly detailed narrative that captures this crucial moment *Moscow 1941* is a dramatic unforgettable portrait of an often overlooked battle that changed the world

Moscow: The Turning Point? Klaus Reinhardt, 1992-11-30 Based on a wealth of source material the author sets out to refute the widely held view among historians and military experts that the German defeat at Stalingrad in the winter of 1942-43 marked the turning point in the war He shows how Hitler's attempt to crush the Soviet Union in a Blitz campaign was doomed to failure from the beginning and how defeat outside Moscow compromised his plans for a successful conclusion to the war

The Drive on Moscow, 1941 Niklas Zetterling, Anders Frankson, 2018-07-19 At the end of September 1941 more than a million German soldiers lined up along the frontline just 180 miles west of Moscow They were well trained confident and had good reasons to hope that the war in the East would be over with one last offensive Facing them was an equally large Soviet force but whose soldiers were neither as well trained nor as confident When the Germans struck disaster soon befell the Soviet defenders German panzer spearheads cut through enemy defenses and thrust deeply to encircle most of the Soviet soldiers on the approaches to Moscow Within a few weeks most of them marched into captivity where a grim fate awaited them Despite the overwhelming initial German success however the Soviet capital did not fall German combat units as well as supply transport were bogged down in mud caused by autumn rains General Zhukov was called back to Moscow and given the desperate task to recreate defense lines west of Moscow The mud allowed him time to accomplish this and when the Germans again began to attack in November they met stiffer resistance Even so they came perilously close to the capital and if the vicissitudes of weather had cooperated would have seized it Though German units were also fighting desperately by now the Soviet build up soon

exceeded their own THE DRIVE ON MOSCOW Operation Taifun 1941 is based on numerous archival records personal diaries letters and other sources It recreates the battle from the perspective of the soldiers as well as the generals The battle not fought in isolation had a crucial role in the overall German strategy in the East and its outcome reveals why the failure of the German assault on Moscow may well have been true turning point of World War II Niklas Zetterling is a researcher at the Swedish Defense College Along with Anders Frankson he has previously written Kursk 1943 A Statistical Analysis and The Korsun Pocket The Encirclement and Breakout of a German Army in the East 1944 Both authors currently live in Sweden

The Battle for Moscow, 1941-1942 Albert Seaton,1971 **The Drive on Moscow, 1941** Niklas Zetterling,Anders Frankson,2012 This book is based on numerous archival records letters and other sources It recreates the battle from the perspective of the soldiers as well as the generals The battle not fought in isolation and its outcome reveal why the failure of the German assault on Moscow may well have been the true turning point of World War II [Air Battle for Moscow 1941-1942](#) Dmitry Degtev,2020-12-19 In October 1941 Operation Typhoon and the battle for Moscow began According to Hitler s plan it was to be the last offensive after which nothing could stop Germany from conquering Britain and the rest of Europe but first he had to overcome the Soviets and especially their air force Air Battle for Moscow is the first detailed description of one of the most vital yet little known air battles of the Second World War The battle for Moscow opened with the flights of long range reconnaissance aircraft which photographed Moscow and the Kremlin Then on 22 July 1941 Operation Clara Zetkin the Luftwaffe s aerial assault on Moscow began But the Luftwaffe was opposed by the Stalin s Falcons the elite 6th Air Defence Corps which defended the Soviet capital with a determination which saw bitter duels to the death and horrendous casualties on both sides The book presents new facts about this dramatic battle and describes in detail the actions of the aircrew on both sides Yet this is not just the story or the air war The authors also describe the lives of people during the war of suppressed anti Soviet opposition in Moscow and of the bloodthirsty and inhuman actions of the Stalin regime The book also tells of the fate of German pilots caught in Russian captivity and the adventures of those who were able to survive and escape from the Russian executioners Many myths concerning the battle are also challenged such as the often stated belief that Moscow s anti aircraft defences were the most powerful in the world and that it was the Soviets who were the finest pilots In this comprehensive account details of losses biographical outlines of the key individuals analyses of the different aircraft and a full chronology of the battle are presented as well as numerous exclusive photos documents and drawings But it is the stories of those who fought in the Battle for Moscow that undeniably have the greatest impact The harrowing tales of death and survival in conditions that are almost beyond description demonstrate just how important this conflict was to both Russia and the Third Reich and ultimately to the outcome of the Second World War

The Battle of Moscow Albert Seaton,1985 In late 1941 the world shuddered to watch the Soviet army crumbling before the Germans The fight for Moscow raged ferociously leaving in its wake a trail of atrocities unlike anything seen in human

history This is the remarkable story of the battle that shattered the Nazi high command **The Viaz'ma Catastrophe 1941**
Lev Lopukhovsky, 2025-04-30 The Viaz ma Catastrophe 1941 describes one of the most terrible tragedies of the Second World War and the events preceding it The horrible miscalculations made by the Stavka of the Soviet Supreme High Command and the Front commands led in October 1941 to the deaths and imprisonment of hundreds of thousands of their own people Until recently the magnitude of the defeats suffered by the Red Army at Viaz ma and Briansk were simply kept hushed up For the first time in this book a full picture of the combat operations that led to this tragedy are laid out in detail using previously unknown or little used documents The author was driven to write this book after his long years of fruitless search to learn what happened to his father Colonel N I Lopukhovsky the commander of the 120th Howitzer Artillery Regiment who disappeared together with his unit in the maelstrom of Operation Typhoon He became determined to break the official silence surrounding the military disaster on the approaches to Moscow in the autumn of 1941 The author additionally introduces documents from German military archives which will doubtlessly interest not only scholars but also students of the Eastern Front of the Second World War Lopukhovsky substantiates his position on the matter of the true extent of the losses of the Red Army in men and equipment which greatly exceeded the official data In the Epilogue he briefly discusses the searches he has conducted with the aim of revealing the circumstances surrounding the deaths of Soviet soldiers who to this point have been listed among the missing in action including his own father The narrative is enhanced by numerous photographs colour maps and tables
