universe and the emergence of consciousness and value within it Her pragmatic empiricist epistemology provides the framework for a sophisticated account of various intellectual virtues conducive to excellent cognitive engagement with reality Her moral philosophy weaves together a broadly Nietzschean emphasis on self perfection with respect for all human beings and a strong interest in social solidarity In her philosophy of religion she follows children as they guide her to recognize a sense for the divine and the importance of sensorily informed religious practice Her politics informed by lifelong feminism and concern for peace shows how the education of the child is the key to cosmopolitan solidarity and lasting peace Her philosophy of technology while recognizing the dangers of technological development also sees in children the human potential and even vocation to develop technology for the betterment of the world [Exceptional Child Education Abstracts](#)

The book contains the activities she did using easy to find everyday equipment. Jo also runs an ecourse Montessori Crash Course with Deb Chitwood helping overwhelmed parents come to grips with Montessori and getting them started on their Montessori journey. This book is a collection of activities taken from the blog when Jo's son was between the ages of two and four but many were used until he was much older.
