While You're Awake is your call to stop drifting through life on autopilot and start consciously designing the story you're here to live. Most people wait for a crisis, a loss, or a breakdown to begin questioning their choices. This book invites you to begin now with eyes open and full agency so you can change the story before the plot twist hits. Examine your patterns. Audit your beliefs. Interrupt the habits that were written by fear, not by truth. This isn't about creating a fantasy life; it's about owning the one you're living, rewriting it where needed, and stepping into authorship with intention. Every day is a sentence. Every decision, a line. And the story you're telling with your life is unfolding, whether you're conscious of it or not. So why not make it something you're proud of? You don't have to rewrite it all overnight. You just have to stop sleepwalking through chapters you never meant to be in. Because when you wake up to your own voice, your own values, and your own power, everything in the story changes.

*Story and Sustainability* explores the role of story in planning theory and practice with the goal of creating U.S. cities able to balance competing claims for economic growth, environmental health, and social justice. In the book, urban practitioners and scholars from fields as diverse as American studies, English, geography, history, planning, and criminal justice reflect critically on the traditional exclusionary power of

storytelling and on its potential to facilitate the transformations of imagination theory and practice necessary to create sustainable democratic American cities. The book begins with an editors introduction identifying story sustainable U S cities and democracy as the three key themes. Part I advances and refines these concepts connects them to contemporary U S urban planning and provides tools that can be used when reading and interpreting the texts in part II. Part II exemplifies amplifies and modifies the key themes and arguments through the presentation of eight texts theoretical and experiential academic and nonacademic expository and narrative and familiar and unfamiliar. The combined focus on story and urban sustainability makes this book a unique contribution to planning literature.
