Alternate History Novel Case Studies:

Alternate History Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K Dick's *The Man in the High Castle* and Philip Roth's *The Plot against America* as well as less widely discussed manifestations of the genre such as Dieter Kuhn's *N Christian Kracht's Ich werde hier sein im Sonnenschein und im Schatten* and Quentin Tarantino's film *Inglourious Basterds*

Commemorative practices are revised and rebuilt based on the spirit of the time in which they are re created Historians sometimes imagine that commemoration captures history but actually commemoration creates new narratives about history that allow people to interact with the past in a way that they find meaningful As our social values change race gender religion sexuality class our commemorations do too **We Are What We Remember The American Past Through Commemoration** analyzes current trends in the study of historical memory that are particularly relevant to our own present our biases our politics our contextual moment and strive to name forgotten overlooked and denied pasts in traditional histories Race gender and sexuality for example raise questions about our most treasured myths where were the slaves at Jamestowne How do women or lesbians protect and preserve their own histories when no one else wants to write them Our current social climate allows us to question authority and especially the authoritative definitions of nation patriotism and heroism and belonging How do we un commemorate things that were mis commemorated in the past How do we repair the damage done by past commemorations The chapters in this book contributed by eighteen emerging and established scholars examine these modern questions that entirely reimagine the landscape of commemoration as it has been practiced and studied before

Science-fiction Studies, 2006 **Making History Even Worse** Doreen Klahold, 2013-09-23 Seminar paper from the year 2013 in the subject Didactics for the subject English Literature Works grade 1 3 University of Dusseldorf Heinrich Heine language English abstract Many a German would wish to undo his country's past We would prefer that Hitler had never been born that the Third Reich and especially the Holocaust would have never taken place However how is it that an immense number of the non German alternate histories about the Third Reich and there are actually quite a lot depict the world as not better or even worse without Hitler This essay will focus on the uchronian nightmare scenario **Making History** written by the British author Stephen Fry in 1996 and winner of the Sidewise Award for Alternate History First I will treat

the protagonist's utopian wish to create a better world by preventing Hitler from being conceived and the dystopian effect of the changing of history. This playing with expectations attracts the reader's attention and shows the complexity of history and society even though it naturally has a merely entertaining tenor as well. Second I will briefly analyze that the style of rewriting history, the contrasting juxtaposition of the different chapters and particularly the two opposing parts of the novel and finally the ironic tone implied continuously underline the sometimes satiric developments of fate and the naïve wish of making a better utopian world without being able to assess the outcome. Finally against the concept of alternate history in general it will be seen that alternate history is a means to examine history and present but how history would have turned out differently is hard to tell since it depends on more than just individual events or persons. By thinking about how things could have been worse we perhaps learn to accept that everything that happens shapes us and our present as barbaric as it might be.

Anglistentag 2002 Bayreuth Ewald Mengel, Hans-Jörg Schmid, Michael Steppat, 2003 **Summerland** Michael Chabon, 2016-04-12 From the Pulitzer Prize winning Michael Chabon comes this bestselling novel for readers of all ages that blends fantasy and folklore with that most American coming of age ritual baseball now in a new edition with an original introduction by the author. Ethan Feld is having a terrible summer his father has moved them to Clam Island Washington where Ethan has quickly established himself as the least gifted baseball player the island has ever seen.
