## Global Trend Bookstagram Favorite:

*Filterworld* Kyle Chayka, 2025-01-21 From New Yorker staff writer and author of *The Longing for Less* Kyle Chayka comes a timely history and investigation of a world ruled by algorithms which determine the shape of culture itself. From trendy restaurants to city grids to TikTok and Netflix feeds the world round algorithmic recommendations dictate our experiences and choices. The algorithm is present in the familiar neon signs and exposed brick of Internet cafes be it in Nairobi or Portland and the skeletal modern furniture of Airbnbs in cities big and small. Over the last decade this network of mathematically determined decisions has taken over almost unnoticed informing the songs we listen to the friends with whom we stay in touch as we've grown increasingly accustomed to our insipid new normal. This ever tightening web woven by algorithms is called *Filterworld*. Kyle Chayka shows us how online and offline spaces alike have been engineered for seamless consumption becoming a source of pervasive anxiety in the process. Users of technology have been forced to contend with data driven equations that try to anticipate their desires and often get them wrong. What results is a state of docility that allows tech companies to curtail human experiences human lives for profit. But to have our tastes behaviors and emotions governed by computers while convenient does nothing short of call the very notion of free will into question. In *Filterworld* Chayka traces this creeping machine guided curation as it infiltrates the furthest reaches of our digital physical and psychological spaces. With algorithms increasingly influencing not just what culture we consume but what culture is produced urgent questions arise. What happens when shareability supersedes messiness innovation and creativity the qualities that make us human. What does it mean to make a choice when the options have been so carefully arranged for us. Is personal freedom possible on the Internet. To the last question *Filterworld* argues yes but to escape *Filterworld* and even transcend it we must first understand it.

[The School Library Manager](#) Blanche Woolls, Joyce Kasman Valenza, April M. Dawkins, 2023-06-15 The seventh edition of this comprehensive school library management text expands upon the role of the school librarian especially in the ever growing digital realm and highlights the importance of school librarian leadership and outreach. In an era of budget cuts reduced staffing and a global pandemic it's more important than ever for new LIS professionals and established school librarians and administrators to demonstrate the value of school libraries to decision makers. This revised and updated edition of a classic text adds two well known authors to help lead readers through the many essential management tasks and skills required to administer the successful school library program. It emphasizes the importance of the school librarian in providing digital access to information for teachers and students describes how facilities are being modified to accommodate new resources and programming and offers new ways to use AASL standards to evaluate programs. All chapters are updated and the text addresses such timely subjects as providing information resources when students teachers and librarians are interacting online. A new chapter highlights the importance of the school librarian's leadership in schools districts and communities. This invaluable textbook teaches practical skills for school library

management and offers inspiration and guidance for growing LIS careers
