raising is s he out of control The time honored rules and humorous consequences are presented as part of a fictitious handbook written by the National Parents Association Nonetheless parents cant deny the cause and effect relationship that exists between noncompliance with these rules and a childs unacceptable behavior This book seeks to make parents more aware of the consequences of their parenting choices and the importance of reinforcing social norms It affords parents quality time to think about the root of their childs socialization problems This book is thought provoking It places parents on a teeter totter forcing them to weigh the pros and cons of enforcing time honored rules and or modifying their own behavior As parents ponder the positives associated with changing parenting strategies they may doubt that the long term benefits will outweigh the short term costs of forcing their child to come into compliance The book encourages parents to consider the overall importance of changing to enable their child to become a well adjusted productive adult Lastly this book hopes to motivate a commitment to change The book prompts parents to gather additional information about what they will need to do to change their behavior The second book will focus on what strategies and resources are available to help them in their attempt Too often parents skip this initial stage They try to move directly into action and fall flat on their faces because they havent adequately researched or accepted what it is going to take to make this major lifestyle change
