solution he argues is not to place undue blame or expectation on individual lifestyle choices but rather to embrace small resets which taken together can start to turn the tide Offering practical advice on how to renaturalise our senses and rewild our creativity this book fosters an unwavering optimism in the value of Nature for the conservation of human health if we can only reconnect     *American Review* Vivian Trow Thayer,1924 Includes section Books     *Contributions from the Department of Anatomy* University of Minnesota.
