Questions of Style Michel Hockx,2017-06-20 Dealing with the central issue of style in literature this groundbreaking study is a must for sinologists but also for all students of comparative literature Michel Hockx takes as a point of departure the observation that most writers of the Republican period adhered to a distinctly traditional practice of gathering in literary societies while at the same time displaying a marked preference for publishing their works through the modern medium of the literary journal The first part of the book analyses different types of societies and their journals The case studies in part two convey the wider impact of literary collectives and journal publications on literary practice Convincingly breaking with the May Fourth paradigm the author proposes a radically new way of understanding the relationship between New Literature and other styles of modern Chinese writing

Traditions Since 1500, Volume 1 Thomas McStay Adams, 2023-01-26 Tracing the interwoven traditions of modern welfare states in Europe over five centuries Thomas McStay Adams explores social welfare from Portugal France and Italy to Britain Belgium and Germany He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present how to allocate aid equitably and with dignity how to give support without undermining autonomy and motivation and how to balance private and public spheres of action and responsibility Across two authoritative volumes Adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across Europe The narrative begins with the founding of the Casa da Misericordia of Lisbon in 1498 a model replicated throughout Portugal and its empire and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000 Volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition It looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity Volume 2 examines 18th century bienfaisance which secularized a Christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers Lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional framework for European economic cooperation came to fruition *The Publishers Weekly*, 1922 **Lawyers' Reports Annotated**, 1917 *The Book of Proverbs* Thomas Jefferson Conant, 1872 **Thomas Hobbes as Philosopher, Publicist, and Man of Letters** Sir George Edward Gordon Catlin, 1922
