will improve his/her ability to consult design programs and work in a variety of settings with various populations including those with medical and psychological conditions as well as those who wish to support their health and well-being. The book provides the necessary conceptual foundational frameworks for exploring how practitioners in a field of alternative medicine/holistic health know what they know in support of their work. These core ways of knowing give them a foundation for evaluating their work, new advances in the field, and affords them interrelated frames of knowledge for their continued research expansion and integrative work in the field. Trained holistic health practitioners who may have applied one or more of these paradigms may now be able to expand their foundational and conceptual base, thereby broadening their theory and techniques that are appropriate to their professional arenas. Section I is designed to explore general ways of knowing and meaning-making in holistic health. Section II is designed to offer the reader practitioner methodology regarding the creation and implementation of holistic health centers, programs, and integrated consultation practices. Finally, Section III offers examples of integrative holistic health clinicians who combine and synthesize a variety of holistic health approaches and paradigms into their practices as practitioners, healers, therapists, and consultants.
