importance of empathy resilience and critical thinking in an uncertain future *Endangering Science Fiction Film* Sean Redmond, Leon Marvell, 2015-06-26 *Endangering Science Fiction Film* explores the ways in which science fiction film is a dangerous and endangering genre. The collection argues that science fiction's cinematic power rests in its ability to imagine Other worlds that challenge and disturb the lived conditions of the real world as it is presently known to us. From classic films such as *2001 A Space Odyssey* and *Solaris* to modern blockbusters including *World War Z* and *Gravity* and directors from David Cronenberg to Alfonso Cuarón, contributors comment on the way science fiction film engages with dangerous encounters, liminal experiences, sublime aesthetics and untethers space and time to question the very nature of human existence. With the analysis of a diverse range of films from Europe, Asia, North and South America, *Endangering Science Fiction Film* offers a uniquely interdisciplinary view of the evolving and dangerous sentiments and sensibility of this genre.

[Reimagining Science Fiction](#) Gary Westfahl, 2025-10-31 In the first decades of the twenty first century science fiction literature has been transformed in many ways as the genre has reacted to the dominating influence of films, television and video games, the growing popularity of fantasy, the rise of young adult science fiction and graphic novels, the impact of the internet and social media and the increasing diversity of the authors, characters and often non-Western settings. The essays making up this volume address these and other changes in two ways. Some consider new critical approaches to science fiction in response to changing circumstances including analyses of how evolutionary psychology explains today's science fiction, the emerging subgenre of cli fi exploring the effects of climate change, the use of science fiction in different areas of the college curriculum and a statistical method for identifying works of science fiction. Others examine significant new authors such as Nalo Hopkinson, Charles Stross, Paolo Bacigalupi, Suzanne Collins, Mira Grant, John Sandford and David Mura. Contributors include science fiction author Howard V. Hendrix and experts in the fields of Chinese studies, gender studies, literature, philosophy and religion.
