Statement of Purpose public Administration sample

What to say statement of purpose for MPA?

The dedication to serve has always been an integral part in any profession.

It stimulates and motivates us to create the foundations of change within a particular realm. Given the increasing diversity in various settings, there is a need to revitalize and integrate concepts to make an individual adaptable to the changes that are happening. One must also have the necessary skills to remain competitive and dynamic in initiating change. With all these, I wish to point out my intention to apply for a Masters degree in public administration. Looking back, I believe that my educational background can help me with my application. I am due to graduate from my Bachelor of Arts in Sociology in December 2008.

I particularly found it interesting to specialize in sociology because of the numerous capabilities this subject can give me. It helped me create a foundation of how service must be facilitated; without any bias or prejudice among groups. With these, I was able to exercise my endeavor with utmost dedication. Due to this, my contribution was recognized by the California Scholarship Foundation. I received the scholarship for service distinction during the year 2001-2002 and 2002-2003.

These honors can clearly show how devoted I am in my line of expertise. Likewise, my experience in Rectron LTD and Christian Zion Church/Sunday School has given me the capability to apply the theories and concepts I had learned during my study. Now, I can be able to promote my cause and beliefs to other people. With these, I hope I can inspire each one to believe in the possibilities available. Also, my encounter with students in China during a missionary trip for our Church gave me an eye opener of how things are.

Most of the time, we are only spectators and observers of what is really happening in our environment. Now, I had the privilege to interact and learned from students' experience. It revitalized my idea of service and initiated a more burning passion to create opportunities for betterment. The desire to be exceptional among others has always been the central point of my life. Despite the relevant challenges and hurdles surrounding my education and work, I always look for opportunities wherein I can effectively balance all the things and clamor for holistic development. Likewise, I feel that all these hard work and perseverance can provide me with the needed training and benchmark in gaining the desire for individual growth.

Now, as I try to embark into another phase of my career, I feel that the program at California State University Fullerton can be a determining facet for these realizations. In the end, I feel that my experiences and skills have given me the training ground and preparation to embrace the challenges of the Masters degree. I feel that the program can give me better leverage
