

Are video games a good way to keep fit?

Nowadays, many teenagers have got video consoles at home and they often like playing active video games. These are good for you for a number of reasons.

First of all, I think that active video games are a good way to keep fit. There are lots of different types of exercise you can do such as basketball, water-skiing and dance and, what's more, you can play them in the comfort of your own home. In my opinion, these games are fun and interactive because you can play them with friends and, if you play online, you don't need to be in the same place as your friend to play.

In addition, you can play them whenever you want. Some people think that it's better to do exercise outside in the fresh air. Although this is true, it's actually difficult to play outside when it's raining or very hot so video games are a good alternative.

To sum up, I believe that video games are a fun and social way to keep fit. I think they are a good option when you can't play outside and they might encourage people to do more exercise.

Top Tips for writing

1. Write your essay in clear paragraphs. Use phrases like *First of all*, *In addition* and *To sum up* to start each paragraph.
2. Express your own opinion using *I think*, *In my opinion* or *I believe*. Mention other viewpoints with phrases like *Some people think* and say whether you agree or disagree with them.

Math plus Reading, Grades 5 - 6 American Education Publishing, 2011-03-15 Each Summer Link Math Plus Reading workbook available in Kindergarten through Grade 6 prepares your child for the school year ahead. The fun, easy to use activities review and extend essential skills and increase confidence at school. Each book includes test prep, a skills checklist for parents, a recommended summer reading list and an answer key. Back cover: *Translation of Thought to Written Text While Composing* Michel Fayol, Denis Alamargot, Virginia Wise Berninger, 2012 Translation of cognitive representations into written language is one of the most important processes in writing. This volume provides a long awaited updated overview of the field. The contributors discuss each of the commonly used research methods for studying translation, theorize about the nature of the cognitive and language representations and cognitive linguistic transformation mechanisms involved in translation during writing and make the case that translation is a higher order executive function that is fundamental to the writing process. The book also reviews the application of research to practice that is the translation of the research findings in education and the work world for individuals who interact with others using written language to communicate ideas. This volume provides a rich resource for student theorists and empirical researchers in cognitive psychology, linguistics and education and teachers and clinicians who can use the research in their work.

Comparative Study of Writing Abilities in Two Modes at the Grade 5, 8, and 12 Levels Ian Pringle, Aviva

Freedman, Ontario. Ministry of Education, Ontario. Ministry of Colleges and Universities, 1985 The third of three studies involving a comparative analysis of transactional and narrative writing of selected samples of students in two Ontario districts this study addressed questions arising from the earlier studies and examined the writing skills of students in grades 5-8 and 12. Writing samples were examined for conformity to the norms of story structure and argumentation and the subject matter of the transactional writing was analyzed. The level of affective development manifested in subsamples of both the stories and the arguments was rated. All the papers in the sample were analyzed for syntactic complexity scores and for mechanical and conventional errors. Comparisons of the first and second versions of the papers were made to assess skills in revising and editing. Findings indicated the need of students to learn how to write an argument and to revise a paper. Other implications were 1 that since the level of difficulty of one aspect of a writing task may decrease the lack of control in another teachers must take into account the nature of difficulties in the tasks they set students and make their assessments accordingly 2 that students at all levels should be given occasions to write narratives 3 that the model of persuasive discourse should be countered and 4 that writing strategies recommended by authorities need to be implemented. **EL Standards Work** Colorado.
