*Working with Trauma-Exposed Children and Adolescents* Joanna Pozzulo, Craig Bennell, 2018-12-07 Far too often children and youth experience trauma from rare events such as mass shootings terrorism attacks and school lockdowns to very common occurrences such as bullying exposure to drugs and alcohol or various mental health issues They can experience these events both directly and indirectly from surfing the internet watching television or through their friends Our children spend a large portion of their day at school interacting with other students teachers and school personnel where these topics are raised and discussed This edited volume addresses how our teachers and school personnel can help students deal with these potentially traumatic events to reach the most positive possible outcomes This collection brings together leading experts including academics and professionals working in the field to provide the most current evidence based practices on how to help students who may have experienced or witnessed trauma It presents research and advice on how to respond to traumatic events regarding bullying drugs and alcohol sexual abuse mental health lesbian gay bisexual transgender and queer LGBTQ safety stranger danger childhood disruptive behaviors school shootings and lockdowns and terrorism It also includes a chapter focused on how to implement a school safety program Schools cannot deal with these issues alone effective strategies must engage family members and the broader community Hence the collection includes a chapter on how schools can partner with families and the communities they reside in to bring about positive change All this work pays close attention to cultural and religious sensitivity socio economic variabilities diversity issues and developmental stages

**The Existential Toolkit for Climate Justice Educators** Jennifer Atkinson, Sarah Jaquette Ray, 2024-05-14 An easy to use field guide for teaching on climate injustice and building resilience in your students and yourself in an age of crisis As feelings of eco grief and climate anxiety grow educators are grappling with how to help students learn about the violent systems causing

climate change while simultaneously navigating the emotions this knowledge elicits. This book provides resources for developing emotional and existential tenacity in college classrooms so that students can stay engaged. Featuring insights from scholars, educators, activists, artists, game designers, and others who are integrating emotional wisdom into climate justice education, this user friendly guide offers a robust menu of interdisciplinary plug and play teaching strategies, lesson plans, and activities to support student transformation and build resilience. The book also includes reflections from students who have taken classes that incorporate their emotions in the curricula. Galvanizing and practical, *The Existential Toolkit for Climate Justice Educators* will equip both educators and their students with tools for advancing climate justice.

**Expressive Arts Therapy for Traumatized Children and Adolescents** Carmen Richardson, 2015-08-11 Expressive Arts Therapy for Traumatized Children and Adolescents is the book so many expressive arts and trauma therapists have been waiting for. Not only does it lay out an organized, thorough framework for applying varied expressive arts modalities, it provides clear directions for the application of these modalities at different phases of treatment. Both beginning and experienced clinicians and students will appreciate the thoughtful analyses of ways for introducing expressive arts to clients, engaging clients with their art being present to the art that is created and working within a particular session structure that guides the treatment process. Readers will also receive more specific learning regarding the process of using body focused and sensory based language and skills in the process of trauma treatment over time. They'll pick up more than 60 priceless expressive arts assessment and treatment interventions that are sure to serve them well for years to come. The appendices features these interventions as photocopyable handouts that will guide the therapist working with youth through each phase of treatment.

**Coalition Commentary**, 2007 **From Safety to Sense of Safety** Jenni Spannari, Liz Grant, Monica Worline, Anne Birgitta Pessi, Henrietta Grönlund, Birgitte Johansen, 2025-09-23 The sense of safety is an essential foundation for human flourishing and well being. It is a basic human need grounded in the evolutionary history of the human species as a part of the ecosphere. However, social, political and health related global challenges have eroded deeply not only safety but our sense of safety. Sense of safety is an individual experience but it is deeply rooted in the social, communal and societal frames. Thus, in research we need to look at the sense of safety understanding that the wider societal situation strongly consists of individual and grass roots level experiences. All people notwithstanding their race or age or any other variable need to feel safe. Sense of safety is a feeling of relative security a comprehensive yet subjective psychological experience. It requires ongoing appraisal closely associated with a person's awareness and perception. That is, sense of safety is related to safety but never the same and it is always about emotions. It is deeply social never just about an individual and should be studied as such. Sense of safety is pivotal for individuals, communities in societies. Interdisciplinary research on sense of safety is scarce and often academically too shallow e.g. not defining sense of safety as in e.g. Zacharia et al 2021, Murakami et al 2017 nor even differentiating between safety and sense of safety e.g. in Zou Yu 2022. Research and mainstream media focus

mostly on the large scale picture of safety e g statistics trends in numbers and political reporting But what are the individual level experiences of sense of safety and sense of security today How are they culturally bound and to what extent more universal *Contemporary Issues in Equity, Democracy, and Public Education* Felicity Crawford,Fadie T. Coleman,Elsa Wiehe,2024-12-27 Contemporary Issues in Equity Democracy and Public Education explores how inequity manifests in public education and social institutions and how this inequity impacts the health and wellbeing of citizens including marginalized people Demonstrating how inequity thereby threatens democracy this book also poses suggestions for improving equity in U S education Taking a multidisciplinary approach to historical and contemporary sources of inequity that operate in social institutions and public policy this carefully curated volume shows how disparities in education levels income housing and health have consequences that reverberate through individuals lives and thereby undermine a democratic way of life Contributions from a wide variety of experts offer approaches to solving these problems as well as curricular innovations for identifying and alleviating systemic inequities Part 1 begins by examining the origins and persistence of systemic inequity in U S public education while Part 2 highlights the physiological psychological and social impacts of systemic bias and how these factors interrupt democratic engagement over time Moving on to examine the curriculum in more detail Part 3 explores how we can promote equity across the curriculum and Part 4 closely considers how we can expand educational opportunities for marginalized groups within STEM education The book will make invaluable reading for graduate students and researchers in Education particularly Social Justice Education Multicultural Education Educational Policy and Politics STEM Education and Social Studies Education as well as policymakers in service teachers administrators and activists Annual Report UNICEF. **Peacebuilding in Traumatized Societies** Barry Hart,2008-02-26 This work examines trauma identity security education and development as issues of critical importance to peacebuilding and social reconstruction after large scale violence This violence takes the form of war mass killings and genocide as well as structural violence that has humiliated and impoverished millions of people across the globe Transitional justice leadership religion and the arts are other crucial issues that are included in this analysis of violence and its transformation The book explores how each issue can be independently addressed for transformational purposes but argues for their active interdepdendence in order to more effectively help individuals communities and societies emerge from violence and begin the rebuilding process Peacebuilding for Traumatized Societies examines these issues in theoretical and practical terms through case studies and descriptions of training and
