Margaret Atwood Shannon Hengen, Ashley Thomson, 2007-05-22. Authors Shannon Hengen and Ashley Thomson have assembled a reference guide that

covers all of the works written by the acclaimed Canadian author Margaret Atwood since 1988 including her novels *Cat's Eye* *The Robber Bride* *Alias Grace* and the 2000 Booker Prize winner *The Blind Assassin*. Rather than just including Atwood's books, this guide includes all of Atwood's works including articles, short stories, letters, and individual poetry. Adaptations of Atwood's works are also included, as are some of her more public quotations. Secondary entries, i.e. interviews, scholarly resources, and reviews, are first sorted by type and then arranged alphabetically by author to allow greater ease of navigation. The individual chapters are organized chronologically, with each subdivided into seven categories: Atwood's Works, Adaptations, Quotations, Interviews, Scholarly Resources, Reviews of Atwood's Works, and Reviews of Adaptations of Atwood's Works. The book also includes a chapter entitled *Atwood on the Web*, as well as extensive author and subject indexes. This new bibliography significantly enhances access to Atwood material, a feature that will be welcomed by university, public, and school librarians. *Margaret Atwood: A Reference Guide, 1988-2005* will appeal not only to Atwood scholars but to students and fans of one of Canada's greatest writers.

[The Need for Revision](#) David P. Owen, Jr., 2012-01-01 Can we have more teacher intellectuals in our classrooms? This book demonstrates that we can. But many things have to change before intellectual standards appear again in public schools. David Owen attempts to show, but not in outline form, how we can revise our schools. Can we escape the rut in which public education finds itself, dominated by the inane tests, the stifling reduction of school to job training, and the insane transformation of a life-affirming odyssey of the mind to click-s information gathering and slogans? We can reclaim the beauty of an education if we join David and revise our classrooms. Education is uncertain, risky, wonderously adventurous, yet schooling has become stale. No tediously dreadful. There is a need to revise. Reject standardized tests. Repeal pay-for-performance. Eject No Child Left Behind before no child has a thoughtful mind left. It is time to revise, and David's book explains why. Are we still interested in the mind, soul, and substance of the individual? Does it matter who we are and become, or just what we do? If these questions still matter, dwell carefully with David's ideas and transform yourself, your students, school, community, state, nation, and world. It is time to revise them all. John A. Weaver, Georgia Southern University.

Fireflies David P. Owen, Jr., 2017-08-24 *Fireflies* is a book about how writing poetry can help us explore memory and identity, and it is also a book of poetry that explores memory and identity. This work is an example of the liminal scholarship advocated in *The Need for Revision* 2011 by the same author, occupying a space in the academic world's windows and doorways, not exactly in any one field but rather in the spaces between, where the inside and outside commingle. It seeks to trouble the boundaries between teacher and writer, critic and artist, writer and reader, and teacher and student in a way from which all parties might benefit. *Fireflies* aims for a different kind of scholarship and hopes to offer new ways for teachers to be professional and academic. The second section of the book is a full-length poetry text, the author's own exploration of the notions that people who teach writing should also be writers, and that poetry is more something you do than something you are. The book says we should write poems not because of some inborn gift for it but because the act of writing poetry is good.

for us and helps us understand ourselves better it is a book written in the hopes that other books will be written Maybe by you David Owen has taken his understanding of currere the root of curriculum to a new level with his demonstration of the value of reading and writing poetry He argues that writing poetry develops an attitude of adventure into everydayness As his first chapter Songs of Ourselves suggests we all can be Whitman s if we take up our pens to celebrate what lives around us as well as in us Owen demonstrates this theory with a calendar of poems he wrote that share small frozen moments of the seasons of a year Connecting his memories with forays into night skies and fireflies and the fractals that God makes David Owen s poetic images suggest that our deep connection with Earth can be recovered if we let a little more oak in the voice of our words Mary Aswell Doll author of The Mythopoetics of Currere
