The Grandfather Paradox Steven Burgauer, 2017-01-17 Marooned in the present their only hope for the future lay in the past But first there was still the small matter of staying alive The planet they were marooned on was crawling with bird beasts immense parrotlike carnivores that stood two meters tall weighed upwards of fifty klogs and had a giant scooped beak like a pelican They normally swallowed their prey whole though not before crushing them to death in their vise like jaws Then there were the vipers writhing snake like creatures armed with dozens of sucker bearing tentacles They sprayed their victims with acid then ate them while they were still alive But it got worse Much worse Now join Andu Nehrengel and his female clone companions on an intense voyage through time First stop the Civil War and the Battle of Shiloh April 1862 one of the most horrendous land battles of all time Meet Mark Twain when he is still a riverboat pilot Journey with him north to Missouri when he joins the Confederacy Then it s back to the future and on to Mars And when you re done reading this adventure check out these other fine books by author Steven Burgauer The Night of the Eleventh Sun The Road To War Duty Drill Courage Capture and his newest historical

fiction piece Nazi Saboteurs on the Bayou with a short video trailer <https://www.youtube.com/watch?v=nQs2pwr89RI> **Out There** Michael Wall, 2025-05-01 In the vein of Randall Munroe's *What If* meets Brian Green's *Elegant Universe* a senior writer from Space.com leads readers on a wild ride of exploration into the final frontier investigating what's really out there. We've all asked ourselves the question. It's impossible to look up at the stars and NOT think about it. Are we alone in the universe? Books, movies, and television shows proliferate that attempt to answer this question and explore it. In *Out There* Space.com senior writer Dr. Michael Wall treats that question as merely the beginning, touching off a wild ride of exploration into the final frontier. He considers, for instance, the myriad of questions that would arise once we do discover life beyond Earth, an eventuality which top NASA officials told Wall is only drawing closer. What would the first aliens we meet look like? Would they be little green men or mere microbes? Would they be found on a planet in our own solar system or orbiting a star far, far away? Would they intend to harm us and, if so, how might they do it? And might they already have visited? **Out There** is arranged in a simple question-and-answer format. The answers are delivered in Dr. Wall's informal but informative style, which mixes in a healthy dose of humor and pop culture to make big ideas easier to swallow. Dr. Wall covers questions far beyond alien life, venturing into astronomy, physics, and the practical realities of what long-term life might be like for we mere humans in outer space, such as the idea of lunar colonies and even economic implications. Dr. Wall also shares the insights of some of the leading lights in space exploration today and shows how the next space age might be brighter than ever. **Kliatt**

Young Adult Paperback Book Guide, 2002 **The 7th Paradox Book One** Levy, Stephen, 2020-06-07 Every time someone travels backward in time, they always screw something up. Josiah Jenkins just happens to be the person responsible for repairing any contradictions that time travel might've caused. Out of all the paradoxes that he ever fixed, the 7th one happens to be the paradox that's closest to his heart. But only because it happened in the very city he was born and died in. Jason Michaels was only a child the day Josiah met his end. He's all grown up now and he's a famous game designer working in uptown Comet City. He doesn't dare tell his co-workers he really lives on the southside in a place called Parkville. That's because the uptowners think people from Parkville are animals. The sector is nicknamed Darkville because it's the only place in the world without internet access and it's overrun by a violent street gang that stay strapped with laser guns and peddle an addictive audio file that makes users' eyes glow in the dark. Homeless and down and out, Simon Pixel roams these streets in his wheelchair. A far cry from the prophecy that named him the chosen one when he was just a boy. Back then he was Jason's best friend. Until he lost his ability to walk in a freak accident that he blamed on Jason. When Dr. Myron Maelstrom opens a doorway to a digital city, Jason will have to enter this new dimension but to save the world he will need Simon's help. Can Jason and Simon face their fears and set aside their differences for a greater purpose? If so, they will fulfill the prophecy and give birth to the true hero. A boy from Parkville who will save the universe and set forth the greatest paradox of all. **Crux Mathematicorum**, 1989 Problem solving journal at the senior secondary and university undergraduate levels for those who
