## Creative Writing Prompts Kids Insights:

*The Routledge International Handbook of Child and Adolescent Grief in Contemporary Contexts* Carrie Traher, Lauren J. Breen, 2023-11-29 This volume presents the leading research in child and adolescent grief from a diverse and global perspective focusing on the systemic political and cultural processes that have a direct bearing on the way youth experience loss and grief. Carrie Traher and Lauren J Breen bring together a global community of academics, practitioners and social activists to discuss and address the complexity of lived experiences of grief for young people today. Presented in four parts, the contributors begin by providing a theoretical overview of youth grief and bereavement before moving onto other important topics such as suicide bereavement, the trauma of war, digital grief narratives, child soldiering and more. Within each chapter, authors address contemporary theoretical frameworks, research findings and praxis related to both death and non-death losses such as the Black Lives Matter movement, environmental grief and grief on the internet and social media. Including contributors from a range of countries and from various disciplines such as educators, health care professionals, policy makers and advocates, the themes of coping, resilience and growth are central and interwoven in each chapter. This handbook is essential for researchers, clinicians, scholars, educators, parents and activists as to the most pressing societal and global issues that affect youth grief today and to provide context to their personal and professional interactions with youth.

Numerous studies of Expressive Writing have confirmed this and there are other established methodologies for practice. However, to date, few accounts have offered detailed descriptions showing how and why putting pen to paper can be so beneficial. This book delves deeply into the landscape of Writing for wellbeing and demonstrates the transformative power of writing in a wide range of contexts. Topics include personal trauma narratives within the Humanities, a participatory Writing for wellbeing study that demonstrates the effectiveness of writing in the context of grief and loss, surprise as the hidden mainspring of poetry's therapeutic potency, the empowerment and healing potential offered by Black women's blogs, playwriting positioning LGBTQIA identities as positive through stories of belonging, how writing workshops have helped newly literate Indigenous adults and other participants in the Australian outback, and how the smuggled writings of Behrouz Boochani have enabled global witnessing of the stories of refugees held in offshore detention. This resource sets out the theory and research at the foundation of Writing for wellbeing in close relation to full and engaging accounts of practice. It aims to make the topic accessible and affirms its place as an effective reconstructive practice alongside other expressive arts therapies, providing a holistic and inspiring resource for anyone wishing to practice, teach or research Writing for wellbeing.
