*Wealth Habits* Candy Valentino, 2022-11-15 You don't have to be educated or connected to be wealthy. How do wealthy people do it? Are they geniuses? Lucky? We tend to think something special must be going on because it looks like magic. But nothing could be further from the truth. Wealthy people have simply adopted six key yet ordinary habits and they do them extraordinarily well. Candy Valentino opened her first brick and mortar store at 19, no college, no connections, no money, and built it into a seven figure business before most of her friends graduated college. Over two decades of success as a serial entrepreneur and real estate investor, she has labored relentlessly to crack the code of the super wealthy and in doing so has unearthed six simple habits that directly contribute to those who become part of the self-made millionaire class. In *Wealth Habits*, Valentino reveals all six habits and shows you how you can put them to work for you. Long term investing strategies, How to recession-proof your business, Ways to keep money out of the IRS' hands, What to teach your children about money, How to establish financial protection and security, The secrets to keep more of the money you make so you can invest more. Think and get rich will only get you so far. It's time to do and become wealthy and set yourself up for a lifetime of true financial freedom.

*Freedom from Work* Daniel Friedman, 2016-11-30 A refreshing and rigorous analysis of financial self-help that gets to the heart of identity formation in neoliberalism. Sociology at its best. Peter Miller, London School of Economics. In this era where dollar value signals moral worth, Daniel Friedman paints a vivid portrait of Americans and Argentinians seeking to transform themselves into people worthy of millions. Following groups who practice the advice from financial success bestsellers, Friedman illustrates how the neoliberal emphasis on responsibility, individualism, and entrepreneurship binds people together with the ropes of aspiration. *Freedom from Work* delves into a world of financial self-help in which books, seminars, and board games reject get-rich-quick formulas and instead suggest to participants that there is something fundamentally wrong with who they are and that they must struggle to correct it. Friedman analyzes three groups who exercise principles from *Rich Dad Poor Dad* by playing the board game *Cashflow* and investing in cash-generating assets with the goal of leaving the rat race of employment. Friedman shows that the global economic transformations of the last few decades have been accompanied by popular resources that transform the people trying to survive and even thrive. A gifted observer, Friedman's ethnographic account uncovers a unique blend of morality and economics in self-help groups pursuing their dream of financial freedom. This book contributes to economic and cultural sociology but will also fascinate general readers. Viviana A. Zelizer, Lloyd Cotsen, 50 Professor of Sociology, Princeton University. A wonderful portrait of how financial technologies of the self work in modern culture. Marion Fourcade, University of California, Berkeley.
